

**mondi™**

*commercial*

## **water pump extension**

with ball valve - 30" to 42"

- Extends the water flow from the pump up to the end of the handle
- Regulates water volume by use of a ball valve
- Anodized, extruded aluminum poles that easily connect to each other with locking collars for additional height to a maximum of 42"
- Ergonomically-designed extruded aluminum bend acts like a handle for safely moving the connected pump from rain barrels or reservoirs. You no longer have to pull the pump out by the electrical cord or hose.
- Ingenious water aerator for rain barrels or reservoirs
- Great for aerating compost tea
- Universal fit to most water pumps

**model #C200**
