## premium propagation stand

- The Premium Propagation Stand is an easy to assemble shelving system for up to ten propagation trays.
- With a width of less than two feet it leaves you more space to carry out other tasks in your room and optimizes your growing efforts.
- It's also complete with locking wheels for increased stability.
- By adding the right grow lamps and mini-greenhouses you'll have the ultimate propagation system that any serious gardener would be proud of.

**model #R100**
