Mondi™ Mini Greenhouse 7" Frosted with Easy Vents (Model# D101-90)

Mondi™, the original inventors behind the design, style, and performance of the patented Mini Greenhouse, introduces the latest innovation of the **7" Frosted Mondi™ Mini Greenhouse**—the ultimate humidity dome for light control in highly illuminated environments.

Now manufactured using **Avara Technology**—a proprietary, food-grade material that is BPA-free, non-off-gassing, reusable, recyclable, and contains reclaimed ocean plastics—this dome sets a new benchmark in durability, safety, and environmental sustainability.

KEY FEATURES:

- **NEW! Avara Technology – Proprietary Food-Grade Material**
- **NEW!** Constructed from thick, **frosted**, high-grade material for light control in highly illuminated environments
- **The original patented 7" design** for optimized growing space
- Made with BPA-free, non-off-gassing materials
- Perfect 2-Finger Easy Vent ensures precise humidity regulation
- High light and UV exposure protection
- Reusable and recyclable, contains reclaimed ocean plastics

RECOMMENDED FOR:

- Seed germination
- Rooting cuttings
- Early-stage plant growth
- Humidity control
- Use in highly illuminated environments
- Perfect Fit system securely pairs with all standard 1020 trays
