Mondi™ Propagation Tray 1020 w/Holes Black and White Commercial (Model# T106-20)

Mondi™, the original inventors behind the design, style, and performance of the patented propagation tray, introduces the latest innovation of the **Mondi™ Black & White Commercial Propagation Tray**—designed to balance durability and affordability, making it ideal for professional growers.

Manufactured using Avara Technology—a proprietary, food-grade material that is BPA-free, non-off-gassing, reusable, recyclable, and contains reclaimed ocean plastics—this tray sets a new benchmark in durability, safety, and environmental sustainability.

KEY FEATURES:

- **NEW! Avara Technology – Proprietary Food-Grade Material**
- The **original patented 1020** design and style
- Made with BPA-free, non-off-gassing materials
- Deep channels and wide 'level fit' ridges prevent water pooling and support media stability
- Reinforced tray ends and sidewalls
- High light and UV exposure protection
- White surface increases light reflectivity, black base prevents light penetration to the root zone
- Lightweight, inter-nestable, stackable, and easy to store and ship
- Reusable and recyclable, contains reclaimed ocean plastics

RECOMMENDED FOR:

- Seed starting
- Propagation of cuttings
- Use with Mondi™ Mini Greenhouse and standard 1020 inserts

MONDI™ PROPAGATION TRAY 1020 W/HOLES BLACK & WHITE COMMERCIAL (MODEL# T106-20)

Article no. **100516**

Height: **2.5 in**
