

Mondi™ Mini Greenhouse Thermo-Hygrometer

The **Mondi™ Mini Greenhouse Thermo-Hygrometer** is a revolutionary tool designed to optimize propagation conditions with precision and ease. Engineered to monitor temperature and humidity levels inside the dome without needing to open it, this device provides growers with real-time data for consistent environmental control. Ideal for large-scale propagation of seedlings and cuttings, it features a patented design developed by the original inventors of the Mini Greenhouse system.

KEY FEATURES:

- Precisely monitors temperature and humidity levels inside the MondiT[™] Mini Greenhouse
- Eliminates the need to open the dome for readings
- Provides growers with real-time temperature and humidity data
- Ideal for successful large-scale propagation of seedlings and cuttings
- Durable construction ensures long-term use

RECOMMENDED FOR:

- Use with MondiT[™] Mini Greenhouse
- Use in a grow tent or greenhouse
- Monitoring room environments
- Food safety
- Pet care

MONDI™ MINI GREENHOUSE THERMO-HYGROMETER BLACK (MODEL# E100-VB)					Article no. 899001	 8 76395 00103 4
Height: 1.2 in	Length: 4.1 in	Width: 0.3 in	Case: 25	Case Weight: 22 lb	Legacy. no. E100-VB	
MONDI™ MINI GREENHOUSE THERMO-HYGROMETER GREEN (MODEL# E100-VG)					Article no. 899002	 8 76395 00115 7
Height: 1.2 in	Length: 4.1 in	Width: 0.3 in	Case: 25	Case Weight: 22 lb	Legacy. no. E100-VG	
MONDI™ MINI GREENHOUSE THERMO-HYGROMETER ORANGE (MODEL# E100-VO)					Article no. 899003	 8 76395 00116 4
Height: 1.2 in	Length: 4.1 in	Width: 0.3 in	Case: 25	Case Weight: 22 lb	Legacy. no. E100-VO	
MONDI™ MINI GREENHOUSE THERMO-HYGROMETER WHITE (MODEL# E100-VW)					Article no. 899004	 8 76395 00117 1
Height: 1.2 in	Length: 4.1 in	Width: 0.3 in	Case: 25	Case Weight: 22 lb	Legacy. no. E100-VW
